DAILY, EXCEPT SUNDAY.

ROSSER & McCARTHY,  
Proprietors.

WEDNESDAY EVE, OCTOBER 20, 1886

A GOODLY number of our citizens greeted Judge Richards at the court house last evening. The attendance would have been much larger had it not been for the entertainment at the opera house, which is attracting large audiences every night. Quite a number of ladies graced the occasion and were interested listeners to the remarks of Judge Richards, who spoke about one hour. A marked feature of the speaking was the close attention throughout, and the enthusiastic applause with which the remarks were received. Briefly, the speaker contrasted the principles of the two parties, showing that the Democrats from the beginning have always fought for that Jeffersonian doctrine which declares that this Government is and shall ever be "a government by the people and for the people." After reviewing the financial policies of the two parties, he pointed out the peculiarity of the struggle in this district, showing wherein the Democracy of the State and of the Nation was strongly interested in the result. A defeat of the Democratic nominee in this district might result in the defeat of the Hon. John G. Carlisle, one of Kentucky's most gifted and most honored sons, to the Speakership of the next House. More than this, such a defeat might change the political complexion of the next Congress, and turn it over to the entire control of the Republicans. His allusions to speaker Carlisle were received with the most enthusiastic applause. Judge Richards advanced many other strong arguments in favor of his strong and harmonious work from now on till the end of the struggle on the 2nd day of next month. He was convinced, from his canvass of other counties in the district, that the Democrats will win. All that is necessary to insure success is to see that the full vote is polled. The danger is in over-confidence. In concluding his remarks, he urged the Democrats to renewed efforts in behalf of their nominees.

Will the learned editor of the *Burlington* have the kindness to inject a ray of light into our darkened brain?—*Republican Enterprise.*  
Please excuse us. We fear it would be too difficult a task.

GENERAL JOHN RODMAN, widely known throughout this State, is dangerously ill with Bright's disease at the home of his daughter in Louisville. His end is thought to be near.

THE CINCINNATI ENQUIRER is still after the gigantic monopoly carried on by Van Antwerp, Bragg & Co., in the school-book business. It charges that the six McGuffey's Readers sold by the above firm for \$3.50, cost for publishing but eighty cents. No wonder the people are "kicking."

In 1871, the assessed value of property in Fayette County was a little over \$15,000,000. Last year the assessment when equalized amounted to about \$13,000,000, a falling off of over \$2,000,000. In the face of this showing, it is known that property has been increasing in value right along. There's a screw loose somewhere, but the remedy for the looseness, will no doubt be found in the new revenue law.

### The Ladies are Invited.

The ladies have a special invitation to attend the speaking at the court house to-night. Seats will be reserved for them, and we hope many will be present to hear Judges Savage and Hager. They will speak in the interest of Judge Wall, nominee for Congress.

### Savage and Hager.

Judge S. S. Savage and Hon. John F. Hager, of Boyd County, will speak at the court house this evening at 7 o'clock. Our readers are well acquainted with Judge Savage, and know that he never fails to interest and entertain his hearers. Both gentlemen are splendid speakers. Mr. Hager is prominently mentioned as a candidate for Attorney General. We hope they will be accorded a rousing reception.

### Two Accomplished Gentlemen.

Judge Savage and J. F. Hager, of Ashland, Ky., were in the city Saturday, en route to Brooksville, to speak in the interest of Judge Wall. Judge Savage, though defeated for the nomination, carries with him none of the bitterness of defeat, but is working manfully for the election of his successful competitor. He is one of the brainiest men in Eastern Kentucky, and is backed by a host of friends who will not be dismayed by any temporary defeat.

Mr. Hager is a candidate for Attorney General of the State, and is one of the handsomest as well as one of the best lawyers in the State. No man in Kentucky has a better name among his own people than he, and if elected he will be an honor to his people and the State at large.—Lexington Transcript.

## SUNSHINE AND GOOD HEALTH.

### Vitalizing Effects of Colored Rays—Nude.

In the first place, for the ordinary purposes of life, for all people who are well, or nearly well, the full white light as it comes from the sun, is better than any of the colored rays, which are in themselves the constituents parts of that light. It is a most vitalizing and tonic to all people, irrespective persons. But the colored rays of sunlight as separated in a solar spectrum, or as strained off by means of colored glass, constitute all the different sides of power from the sun, which are in themselves the treatment of disease, which is a combination of physiological action, we sometimes need some special color which develops the other side, and thus brings out the harmony which we call health.

I will merely hint at some brief facts with regard to full sunlight, suggesting to the reader that there are several times as much sickness on the shady side of a house or the northern slope of a mountain as upon the sunny side, and that the insane idea of shading the world, which was so popular, and which apparently slightly, will fade out human cheeks especially; that there are patients whose cases have baffled the most eminent physicians while in shaded rooms, and yet they have been cured by the sun; that the sun's rays, the light that the sun emits, are good for the skin, receive the light on their skin, are rarely, if ever, afflicted with scrofula or most of the other diseases, while their physical power is greater than that of the people who wear glasses; that the terrible disease of scrofula, skin affection, goitres, etc., called scrofula, result from dwelling in the sunless valleys, from dwelling in the sunless valleys of the Alps; that living in cellular and shadowy places induces consumption, anemia with its giddy pangs, shivering fevers, depression of the mind, listlessness, excitable nerves, tumors, ulcers, stupid mentality and many other perversions.

"The only girls with rosy-red cheeks and sweet breaths," says Dio Lewis, "the only girls who become fully ripe and sweet, are those who bathe themselves freely in the sun. And in the sunlight, the sun's rays, and all other places where the blessed sunshine is trying to come in, our ladies usually shut it out in haste, for fear of having their complexion spoiled. It is true that in the heat of summer, the heat of the upper brain should be protected from the full sunlight, and also that a person walk on the shady side of the street; but in all moderately warm or cool weather the sunny side is far better.—E. D. Babbitt, M. D., in Hall's Journal of Health.

### A LAKE DISASTER.

### Account of the Terrible Suffering on a Shipwrecked Schooner.

BUFFALO, Oct. 20.—Capt. LeFever, of the schooner O. M. Bond, of Oswego, which went to pieces at Rondeau, during the recent storm, relates the following story of hardship and suffering which those who were saved tell. The Bond left Detroit last Wednesday, with 32,000 bushels of wheat for Buffalo. The gale struck her Thursday afternoon, taking out her jib and broaching her to, so that she shifted her cargo. She was then picked up by the steamer *Boatman*, but went ashore three miles above. The crew were forced into the mainmast head.

Two of the eight men attempted to go out on the jibboom, but just at that moment the mainmast fell, and they were both killed. The two were Mate Ryan of Oswego, and Captain Hughes of Muskegon. The other six clung to their post on the forecastail, where they had gone for shelter, until morning, thirteen hours. In the morning James Clause, a fisherman, procured a small duck-boat, and got out to the wreck, and took the crew off at one time. Sunday morning the boat went down.

### Wants to Be a Notary Public.

CHICAGO, Oct. 20.—Moy Ah Kee, a Chinese laundryman, doing business at 1323 State street, applied to the county court to be naturalized as a citizen of the United States. He had a certificate of declaration of intention, issued by the Consul of the United States at New York City five years ago. The paper was regular, but Judge Prendergast said he was doubtful whether he could make him a citizen, as the eligibility of the Chinese to citizenship is a question of dispute.

He intended May to secure the services of a lawyer, and the court would hear arguments of the matter at a future day. Moy Ah Kee has been in this country nearly fifteen years. He was dressed in a regular Chinese style and was a pig-tail. In despite of the Chinese appearance and command of the English language was as complete as that of the ordinary educated American citizen.

### Negro Conspiracy Against Whites.

DANVILLE, Va., Oct. 20.—Some time ago Lucius Motteley's body was found at the foot of a precipice in North Danville. Strong evidence collected pointed to the negro as the killer. Not long afterward John D. Robinson, a merchant, of North Danville, was the chief instrument in working up the case against Motteley's supposed murderers, and a large sum received in the way of letters from a negro, revealing him to be the son of Motteley and McLain, and warning him to look out for himself. Yesterday morning at about 4 o'clock, Robinson's store was burned.

The circumstances point to a conspiracy on the part of a large number of negroes against the whites, though the number of whites and blacks live on the most peaceful terms.

### Fatal Accident.

NEW YORK, Oct. 20.—Another fatal accident occurred this morning at Shaft No. 27 of the new aqueduct. One man was killed outright, and five others so badly injured that their lives are despaired of. The men were being lowered down the shaft when the man holding the car gave way and precipitated them to the depths below, a distance of nearly 100 feet. Thomas Burke was instantly killed. The wounded are John Giffey, Edward Ferris, and John Nolan, and two others whose names could not be learned.

### The Chaffee Estate.

DANVILLE, Oct. 20.—Last night D. H. Chaffee, one of the most prominent estates of the late Jerome B. Chaffee, filed a bill in the county court putting the total value of the property, at the time of Mr. Chaffee's death, at \$24,831, which amount does not include his accounts against Ward, Grant & Co.

### To Soften Her Lot.

Faithful Omaha wife.—It is true. My husband and I are going way out into the wilderness to take up a homestead. Fair dealer.—How long will you have to live there?—Five years. I pity you. In five years, I can do to soften your lot?—Let me see—you might send me the fashion papers.—Omaha World.

**What Befell Two Lucky Men in Dallas.**  
Mr. J. V. Spellman, the dairymen, is known to everybody in Dallas. He came here ten years ago with two dollars in his pocket. He has made money, owns property, attends to his business as carefully as ever. Yesterday he learned that he drew \$5,000 in the Louisiana State Lottery. He held a one-tenth of ticket announced as the second prize. Mr. Charles W. Swindell, who holds another one-tenth, is a young man well known, his position in the ticket office of Missouri Pacific Railroad bringing him in contact with the citizens. Nobody who knows them doubts for a moment that they have each been lucky enough to get \$5,000 on the investment of one dollar.—The Dallas (Tex.) Evening times, Sept. 17.

"M'liss."

The Cora Van Tassel Dramatic Company had a large audience at the opera house last night to hear them in "M'liss, the Child of the Sierras." The members were in a happy humor and their excellent rendition of this great border drama elicited the warmest praise throughout. As "M'liss," the wif of Smith's pocket," Miss Van Tassel won a strong place in the hearts of her audience, but as Miss Smith, the heiress and the noble woman, she captivated every one, and her most excellent impersonation of the character was rapturously applauded. Her support was excellent, but Edwin Young deserves especial mention. As "Judge Rawswinger" who did everything according to the statots," he kept the audience in a roar of laughter by his almost inimitable rendition of the character.

To-night the company will appear in "Esmeralda," for the first time in this city. "Esmeralda" is one of the most interesting domestic dramas ever written. It is a home-like picture of every day life, laid in North Carolina. This play is the greatest success of any of the great Madison Square plays. It had a run of over 300 performances in New York City. It will be elegantly mounted and beautifully costumed, and will be one of the most delightful performances of the week.

The public will subscribe at least \$50,000, and probably more certainly next year will be forthcoming from Australia."
